## Who are we?

AGLC have been trading for 10 years. We supply learning solutions to a wide range of organisations from local small companies to UK Dept of BEIS, Universities and the World Bank amongst other global agencies, and our collaborators include academic environmental management experts

This programme of learning is designed to help business to reduce their environmental impact, their carbon footprint and their energy bills. It is designed to show that this is not just compatible with increased profitability but essential for the sustainability of the business. It is aimed at business who may be too small to consider ISO14001 and ISO50001 certification, or who need a stepped approach to implementing the systems needed for certification
