

This toolkit is designed to help you manage the risks and opportunities in a world living with Covid-19. It takes a risk based approach to the safety of your staff and the sustainability of your business and is designed to help you work safely and help your business manage the risks and take advantage of some of the opportunities in a world living with Covid-19.

Our online toolkit provides a structured capability audit tool across key areas of business risk during Covid including staff health and safety, cybersecurity, data protection and broader business resilience

It provides two levels of online learning: one for those with management responsibility and the other for all the remaining staff

The training for managers has 7 modules: foundations of safety and resilience; the legal framework; a risk-based approach; risks to people entering business premises; risk to staff working at home; communication and consultation; threats to the business in a world living with Covid.
